Food and Drug Administration

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: The hormonal medication that I  
take to relieve my symptoms of  
depression, poor self-image, sleeplessness and  
general crankiness are not available in  
my state. What right does the FDA have  
to say that I can't receive this medication  
just because it's not available in my state.  
You want to see cranky - deprive all  
baby boomer menopausal women of their hormones!
